HVL Trivia Night

Saturday, February 20 - Teams of 4

Watch your church bulletin for details

Items of Interest

Driving accidents are the #1 killer of teens in the United States. The rest of the top ten killers (#2 - #10) combined don't kill as many teens. Studies show that 43% of new drivers are involved in automobile accidents their first year driving.

The Michigan State Police will present a driver safety workshop at HVL especially for young drivers and their parents in March. Once we set a date, we will publicize this in plenty of time so parents can make plans to attend this important presentation. The theme of safe driving will touch on texting, cell phones, driving in the snow, etc. Parents are strongly encouraged to join us and all are welcome.

Koiné to Perform at HVL

March 26 1:00-2:00

Evening Concert Possible

This past summer Koine performed at HVL and attendees were impressed with their performance. For that reason, we have asked them to return for a special HVL Assembly on Friday, March 26, from 1:00-2:00. We invite all area LES's as well as the general public to join us. There will be a fee of \$2 per person for admission. If you are interested in joining us for an evening concert, please talk with Pastor Schaeewe.

What is Koiné? Koiné formed in September 2003 to lead the music for St. Marcus Lutheran Church's evening worship service. The group is the regular 'house' band at St. Marcus each Sunday evening at 6:30pm, but has garnered a significant following from churches all over the U.S. They have been performing at churches, schools and other special events from Seattle, WA to Phoenix, AZ; Houston, TX to Charlotte, NC; Lincoln, NE to the DC area; Calgary, AB to Ottawa, ON and all points in between. Koiné's music is difficult to describe, but many of the songs you'll hear from the band you will recognize as songs sung in Lutheran churches throughout the country. To hear a few samples of their songs and to find out more about them, visit them on the web at <http://www.koinemusic.com/index.html>
