Driving accidents are the #1 killer of teens in the United States. The rest of the top ten killers (#2 - #10) combined don't kill as many teens. Studies show that 43% of new drivers are involved in automobile accidents their first year driving.

The Michigan State Police will present a driver safety workshop at HVL especially for young drivers and their parents on March 17, from 10:45-12:00 in the HVL chapel. The theme of safe driving will cover topics such as texting, cell phones, driving in the snow, etc. Parents are encouraged to join us and all are welcome.
